- Excellent communication and collaboration skills.
- Great experience working independently and as a team player.
- Eligible to work full-time in the UK.

Personal Profile

I am a proactive individual with a strong passion for front end web development. As a highly driven developer, I am a motivated, confident, and highly detail-oriented individual who strives to always deliver high-quality work. I possess strong interpersonal skills, have an adaptable approach to work and embrace all new challenges given to me. I am excited to transition from my artistic path into the path of a front end developer. My career goals are to join an established front end team to develop, learn and enhance my current skillset and actively contribute to web applications with ideas.
